INTRODUCTION

The annual Criminal Justice Profile series summarizes and combines data pertaining to California's criminal justice system. Separate publications are available for each county and the state. Much of the data presented in the Statewide Profile supplements the Bureau of Criminal Statistics' (BCS) annual Crime and Delinquency publication, which is available upon request. Data not provided in these publications may be available from BCS by special request.

Each Profile consists of two sections. The first section displays annual criminal justice data in tabular form for 1979 through 1988. The second section contains reference tables displaying selected data for 1988.

CRIMINAL JUSTICE DATA

Trend data in the Profile are reported to BCS by state and local agencies and have been summarized for each year. Individual county or statewide totals for selected criminal justice activities are provided in tabular form in this section. Tables are provided on crimes, arrests, processes, personnel, expenditures, and correctional actions.

Where used, population data are shown in hundreds and can be converted to original numbers by adding two zeros. For example, the state population for 1988 is shown as 283,145, which converts to a population total of 28,314,500.

REFERENCE TABLES

The individual reference tables in this section cover data for 1988 on crimes reported, adult and juvenile arrests, prosecution, and adult and juvenile probation.

Each county publication contains jurisdictional data. The statewide publication relates to California counties.

CRIMINAL JUSTICE DATA FOOTNOTES

1 Homicide arrests from 1981 to 1985 are inflated to some degree. Assault with intent to commit murder is included in some cases because of a 1981 law that repealed Penal Code Section 217.

2 Due to a 1982 law change, arrests for driving under the influence of a drug have been removed from the drug law violations category and are included in the "driving under the influence" category.

In the 1983 "other drug law violations" category, agency reporting problems account for almost all of the recorded increase.

3 Caseload count taken December 31 of each year. Diversion cases are not included.

4 Adult Probation: Removals exclude the "all other" category, which includes deceased, transferred to another county, sentence vacated, and appeal approved. Terminations and violations are shown both numerically and as a percent of total removals.

Juvenile Probation: Prior to 1982, initial referrals with prior status of 654 W&I were counted as new referrals. In 1982 and subsequent years, these will be counted as subsequent petitions filed. Subsequent petitions filed include all cases dismissed, transferred, or remanded to adult court.

In 1986, the Bureau of Criminal Statistics developed a new one-day survey form to collect juvenile probation caseload counts. Prior to 1986, these data were developed programmatically from transactions reported by probation departments.

5 Totals have been rounded and are shown in thousands. Expenditures include salaries and employee benefits, services, and supplies. Building construction is not included. Expenditure and personnel data are not comparable with each other. In 1985, the State Controller's Office revised its method of data collection which impacted various subcategories.

6 Includes all other expenditures as reported to the State Controller's Office.

7 In 1985, a survey form was developed by the Bureau of Criminal Statistics to collect probation department data. Because of the new data collection method, additional classifications may be included in the "all other" category.

In 1985, the "Number of Full-Time Law Enforcement Employees" reporting form was revised. This may result in a decrease in the reported number of full-time law enforcement personnel for 1985-1987 in comparison with previous years. One day count of personnel taken June 30 with the exception of police departments, sheriffs' departments, California Highway Patrol, and University of California Police (includes state colleges) which were taken October 31. Probation personnel counts were taken January 1, 1989. The dates varied in previous years. Personnel counts for Lawrence Radiation Laboratory were not available prior to 1980. Personnel and expenditure data are not comparable with each other.

8 Counts for county and city jails and camps and juvenile nonsecure and secure facilities were taken the fourth Thursday in September of each year. Counts for active adult and juvenile probation caseloads were taken December 31 of each year.

In 1986, the Bureau of Criminal Statistics developed a new one-day survey form to collect juvenile probation caseload counts. (See footnote 4.)

Notes: To maintain consistency with prior years' data, the arson crimes reported are excluded from the FBI Crime Index trend data (page 5), however 1988 arson crimes reported are included in the reference table (page 21).

Rates on California Crime Index offenses, clearances, and arrests are not computed where population is less than 100,000.

Rates may not balance because of rounding.

Percents may not total 100.0 because of rounding.

Percent distributions are not calculated when the total number upon which those percents are based is less than 50. This does not apply to clearance rates on the California Crime Index offenses.

KNOWN DATA LIMITATIONS AND CHARACTERISTICS

CRIMES

- Brea and Yorba Linda did not report data for June through December.
- Morgan Hill did not report data for September through December.
- Tulelake did not report data for March through December.
- Ventura County Sheriff's Department did not report data for September through December for the unincorporated area and the following contract agencies: Camarillo, Fillmore, Ojai, Thousand Oaks and Moorpark.

ARRESTS

Arrest and Citation Register

- Homicide arrests from 1981 to 1985 are inflated to some degree. Assault with intent to commit murder is included in some cases because of a 1981 law that repealed Penal Code Section 217.
- Through September 1988, law enforcement dispositions of adult arrests for Oakland Police Department do not accurately reflect disposition actions taken by that agency. Since Oakland accounts for approximately three percent of the arrests in California, the impact on statewide law enforcement dispositions is minimal.
- Morgan Hill Police Department did not report data for September through December.
- Ventura County Sheriff's Department did not report data for September through December for the unincorporated area and the following contract agencies: Camarillo, Fillmore, Ojai, Thousand Oaks and Moorpark.
- The analysis of race/ethnic data must be considered in light of the subjectivity of the labeling process and classification changes, such as those of the U.S. Bureau of the Census (1980).
- Felony arrest counts may include some misdemeanor warrants for felony offenses.
- Agency reporting problems account for almost all of the increase recorded in 1983 other drug law violations.

ADULT FELONY ARREST DISPOSITIONS

Offender-Based Transaction Statistics System

- OBTS statistical data are taken directly from the state's Automated Criminal History System (ACHS). Most arrests are entered to ACHS from the fingerprint card, while most dispositions are entered from the "Disposition of Arrest and Court Action" form (JUS 8715).
- These data reflect 1988 dispositions resulting from adult felony arrests which were made in 1988 or before. There is an important difference between the arrest data reported to the Bureau of Criminal Statistics and Special Services (BCS/SS) and OBTS data. Arrest data are grouped by the year in which the arrest took place. OBTS data are grouped by the year of disposition regardless of the year in which the arrest occurred.
- These data do not represent the total number of adult felony arrest dispositions that occurred during 1988. For example, thousands of adult felony arrests are disposed of by revoking the arrestee's probation or parole status in lieu of filing charges on the new arrest. These new arrest offense dispositions may not have been reported as a final disposition on the JUS 8715 form. Any subsequent actions or arrestees who are turned over to other states or federal jurisdictions are not included in OBTS data. It is estimated that, at the statewide level, 40 percent of the adult felony arrests which were reported to BCS/SS by law enforcement agencies on the Monthly Arrest and Citation Register were not reported on the JUS 8715 form. In spite of this underreporting, the arrest dispositions received generally describe "statewide" processing of adult felony arrestees through California's criminal justice system. However, comparisons of county and local data should be made with caution since the level of reporting may vary between jurisdictions and from year to year.
- If a person is arrested for multiple offenses, OBTS selects only the most serious offense, based on the severity of possible punishment. If there are multiple court dispositions, OBTS selects the most serious court disposition and the associated offense.
- OBTS data on state institutional commitments may vary from information compiled and reported by other state agencies because of differences in the data collection systems. For example, the Department of Corrections (CDC) counts the number of defendants actually received in CDC institutions, even though a defendant may have been convicted and sentenced in two or more counties. OBTS counts each commitment.
- The adult felony arrest disposition file includes 375 persons whose age at disposition was under 18. These minors received a final disposition in adult court under provision of the Welfare and Institutions Code, Sections 707 and 707.1.

ADULT PROBATION

- The data include adults placed on supervised probation only. Court probation, diversion, and summary probation are not included.
- Persons are counted once for each jurisdiction. Thus, data include original grants of probation and do not include subsequent grants of probation to persons already under probation supervision ordered by the same level court in the same county. Also, the probationers under jurisdiction of both superior and lower courts and any who are jurisdictional cases of more than one county are counted more than one time in statewide totals.
- The sources of data are county probation departments' monthly reports of summary data.
- Adult probation placements and removals were estimated by the agency for San Francisco County.

JUVENILE PROBATION

- In cases where a juvenile has multiple petitions filed for more than one offense, only the petition with the most serious offense is recorded. This accounts for the differences between BCS counts and the statistics generated by the Administrative Office of the Courts, which counts the number of petitions processed.
- From 1980 through 1984, the new juvenile justice reporting system included 54 counties. Alameda, Los Angeles, San Diego, and Santa Clara counties reported in the old format. Alameda County began reporting in the new format in 1985 and Los Angeles County in 1988.
- In 1986, BCS developed a new one-day survey form to collect juvenile probation caseload counts. Prior to 1986, these data were developed programmatically from transactions reported by probation departments.

OFFENSE DEFINITIONS OF CRIMES REPORTED

FBI CRIME INDEX OFFENSES: "Seven offenses were chosen to serve as an Index for gauging fluctuations in the overall volume and rate of crime. Known collectively as the Crime Index, these offenses included the violent crimes of murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault and the property crimes of burglary, larceny-theft, and motor vehicle theft. By congressional mandate, arson was added as the eighth Index offense in 1979." These offenses were chosen on the basis of their seriousness, frequency of occurrence, pervasiveness in all geographic areas of the country, and likelihood of being reported to law enforcement. (This definition was taken from "Crime in the United States, 1987.")
